# SUBJECT INDEX

- Abscess
  - submasseteric, 281
- Adenoma
  - parathyroid, preoperative gamma-probe localization, 394
- Aging
  - effects on outcome differences, laryngeal cancer, 92
- Airway
  - structural anomalies, patients with DiGeorge syndrome, 326
- Analgesics
  - opioids as, management of head and neck cancer, 244
- Anterior commissure carcinoma
  - histopathologic study, 294
- Aphthous ulcers
  - recurrent, 389
- Arytenoidectomy
  - laryngofissure approach, for vocal cord paralysis, 22
- Arytenoidopexy
  - laryngofissure approach, for vocal cord paralysis, 22
- Basal cell adenocarcinoma
  - parotid gland, presenting as retroauricular abscess, 421
- Breathing disorders
  - sleep-related, pediatric, 98
- Cancer. *see also* specific type and site
  - anterior commissure carcinoma, histopathologic study, 294
  - basal cell, presenting as retroauricular abscess, 421
  - head and neck
    - cervical recurrence of squamous cell carcinoma, 360
    - chemotherapy and radiotherapy for, 306
    - oral cavity and oropharynx, midline mandibulotomy and radiotherapy, 312
    - papillary, germ cell tumor and, thyroid, 416
- Carcinosarcoma
  - parotid gland, parapharyngeal presentation of, 136
